

Press Release

Annual General Meeting of neosino nanotechnologies AG decides to rename company adinotec AG

Griesheim, 21. April 2008 – At the neosino nanotechnologies AG AGM held 18. April in Griesheim, shareholders decided to rename the company **adinotec AG**.

Executive Board Chairman Edmund Krix said, "The new name adinotec is intended to document the company's new policy. The name adinotec stands for 'advanced innovative technologies'. On the one hand, this demonstrates that we still claim to launch new and advanced technologies onto the market, but at the same time makes it clear that in future, we shall no longer be restricting ourselves to nanotechnology."

The new company name will become effective as soon as it is entered in the register of companies, which normally takes two to four weeks. Following this, the shares will be immediately listed on the stock exchange under the new name, adinotec AG.

neosino nanotechnologies AG has its registered office in Griesheim and up until now has specialised mainly in products in the field of nanotechnology. It offers innovative products for sectors such as the construction industry. The company is listed in the Entry Standard on the Frankfurt Stock Exchange.
